

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

SECTION 1: Identification of the mixture and of the company/undertaking

1.1. Product identifier **VENETIAN STUCCO**

1.2. Relevant identified uses of the mixture and uses advised against

Identified use: interior wall decoration.

Uses advised against: uses inconsistent with the intended use of the product.

1.3. Details of the supplier of the safety data sheet

Cameleo Leśniewicz Gradkowska Sp. J.

ul. Sikorskiego 139

63-100 Psarskie

E-mail address of the person responsible for the safety data sheet: office@cameleo.pl

1.4. Emergency telephone number +48 61 28 35 899 (8.00 – 16.00)

112 (general emergency number), 998 (fire brigade), 999 (ambulance service);

SECTION 2: Hazards identification

2.1. Classification of the mixture

Classification according to Regulation 1272/2008/EC:

The product is not classified as hazardous

Adverse effects on human health:

not applicable

Environmental effects:

not applicable

Effects associated with physicochemical properties:

not applicable

2.2. Label elements

Pictograms: not applicable

Signal word: not applicable

Hazard statements: not applicable

Precautionary statements:

General

P102 – Keep out of reach of children

P101 – If medical advice is needed, have product container or label at hand

2.3. Other hazards

Annex XIII to the REACH Regulation – Criteria for identifying persistent, bioaccumulative and toxic (PBT) substances and very persistent and very bioaccumulative (vPvB) substances – The mixture does not contain substances meeting the PBT or vPvB criteria.

Substances with endocrine-disrupting properties (according to the criteria of Commission Delegated Regulation (EU) 2017/2100 and Commission Regulation (EU) 2018/605) – not applicable

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable; the product is a mixture.

3.2. Mixtures

The product is a mixture.

The ingredients of the product are present below the concentration limits or are not classified as hazardous.

SECTION 4: First aid measures

4.1. Description of first aid measures

Routes of exposure:

inhalation, ingestion, skin contact, eye contact.

Following inhalation:

Move the exposed person to fresh air. Keep the person warm and at rest. If the person is not breathing, give artificial respiration or oxygen and immediately seek medical assistance.

If unconscious, place the person in the recovery position and immediately seek medical assistance. Loosen tight clothing, e.g. a collar or tie. Obtain medical attention if necessary.

Following ingestion:

If swallowed, do not induce vomiting. Immediately rinse the mouth with water. Do not administer any other substances. Obtain medical attention if necessary. Move the exposed person to fresh air. Keep the person warm and at rest. If vomiting occurs, keep the head low to prevent vomit from entering the lungs. Never give anything by mouth to an unconscious person. If unconscious, place the person in the recovery position and immediately seek medical assistance.

Eye contact:

Immediately rinse the eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and if they can be removed. Continue rinsing for at least 20 minutes. Do not use an excessively strong water jet, to avoid damaging the cornea. Obtain medical attention if necessary.

Skin contact:

Remove contaminated clothing and shoes. Clean contaminated skin and rinse with plenty of water. Consult a doctor if skin changes develop and persist.

Protection of first aiders:

Take care with the casualty's contaminated clothing and footwear – they may still contain the product.

4.2. Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in Section 2.2 (label elements) and/or Section 11.

4.3. Indication of any immediate medical attention and special treatment needed

Facilities for immediate first aid should be available at the workplace.

Treat symptomatically. When seeking medical attention, it is recommended to show this safety data sheet to the person providing treatment.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media:

Use extinguishing media suitable for the surrounding fire, e.g. foam, carbon dioxide CO₂, dry extinguishing powders, water spray.

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

Unsuitable extinguishing media:
Do not use solid water jets.

5.2. Special hazards arising from the substance or mixture

Toxic combustion products, e.g. carbon oxides and other decomposition products, may be released during a fire.

5.3. Advice for firefighters

Firefighting:

Use standard methods for fighting chemical fires.

Cool containers exposed to high temperatures with water and remove them from the danger area if possible.

Prevent contaminated firefighting water from entering drains or surface water. Dispose of wastewater and fire residues in accordance with applicable regulations.

Protective equipment for firefighters:

Firefighters should wear appropriate protective equipment, self-contained breathing apparatus with a full-face mask and protective clothing. Firefighters' clothing (including helmets, protective boots and gloves) conforming to European standard EN 469 provides a basic level of protection during chemical incidents.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:

Avoid contamination of eyes, skin and clothing. Avoid direct contact with the released product. Provide effective ventilation. Wear appropriate personal protective equipment as specified in Section 8.

Do not take any action involving a risk to anyone unless appropriately trained. Evacuate people from surrounding areas. Do not allow unnecessary and unprotected personnel to enter.

For emergency responders:

If special clothing is required for clean-up, refer to the information in Section 8. See also the information under "For non-emergency personnel".

6.2. Environmental precautions

Prevent environmental contamination.

Prevent the product from entering drains, surface water and groundwater. Protect drain inlets. In the event of serious contamination of a watercourse, sewerage system or soil, notify the relevant administrative and supervisory authorities and emergency organisations.

6.3. Methods and material for containment and cleaning up

Collect the released product to prevent contamination of soil, surface water or groundwater. Protect drain inlets. Place damaged packaging in a replacement container. Cover the product with absorbent material (earth, sand) and collect it in a closable plastic container.

6.4. Reference to other sections

Personal protection: Section 8

Disposal methods: Section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid exposure – read the instructions (safety data sheet) before use.

Do not ingest.

Avoid contact with eyes, skin and clothing.

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

Keep containers tightly closed when not in use.

Store in the original containers.

Do not empty into drains.

Protective measures:

Use personal protective equipment (see Section 8).

Provide effective ventilation.

Advice on general occupational hygiene:

Do not eat, drink or smoke when using the product.

Wash hands with soap and water whenever work is interrupted or finished.

Remove contaminated clothing and protective equipment before entering eating areas.

Do not use contaminated clothing; wash contaminated clothing before reuse.

Do not take contaminated protective clothing out of the workplace.

Use personal protective equipment (see Section 8).

7.2. Conditions for safe storage, including any incompatibilities

Storage areas must be ventilated.

Keep containers tightly closed and properly labelled.

Store only in the original containers.

Store away from sunlight in a dry, cool room.

Prevent escape from the container and release into the environment.

Handle open containers with great care.

Protect from sunlight.

Stir the product after prolonged storage.

Read the safety data sheet.

7.3. Specific end use(s)

No data available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

National occupational exposure limit values:

According to the Regulation of the Minister of Family, Labour and Social Policy of 12 June 2018 on maximum permissible concentrations and intensities of agents harmful to health in the working environment (Journal of Laws 2018 No., item 1286).

Maximum permissible concentration: (NDS and NDSh) – not determined

DNEL (derived no-effect level) – no data available

PNEC (predicted no-effect concentration) – no data available

8.2. Exposure controls

Provide effective ventilation.

Individual protection measures:

The need for, and selection of, appropriate personal protective equipment should take account of the hazard posed by the product, workplace conditions and the way the product is handled. Protective equipment should meet the requirements of standards and regulations. Ensure easy access to running water at or near the workstation.

Eye or face protection:

Wear safety glasses if there is a risk to the eyes. Select appropriate protection on the basis of the known or anticipated exposure level and the hazard posed by the product or its ingredients. Safety glasses should conform to the relevant standard.

Respiratory protection:

Not required under normal conditions of use with adequate ventilation. Select appropriate protection on the basis of the known or anticipated exposure level, the hazard posed by the product or its ingredients, and the safe operating

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

limits of the selected respirator.

Skin protection

Hand protection:

Wear chemical-resistant protective gloves.

Select gloves taking account of breakthrough time, permeation rate and degradation. It is recommended to check the gloves regularly and replace them at any sign of wear or damage.

Body protection:

Wear protective clothing appropriate to the task and potential risk, and approved by a competent person before work begins.

Environmental exposure controls

Emissions from ventilation systems and process equipment should be checked to determine their compliance with environmental protection legislation.

It is recommended to follow basic rules for the use of machinery and equipment.

General health and safety advice:

Do not eat, drink or smoke while working. Wash hands thoroughly before breaks and after work. Provide engineering measures to prevent environmental contamination.

Note:

The personal protective equipment used should meet the requirements of the Regulation of the Minister of Economy of 21 December 2005 on essential requirements for personal protective equipment (Journal of Laws 2005 No. 259, item 2173).

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state:	Liquid (paste)
Colour:	White
Odour:	No data available
Melting point/freezing point:	No data available
Boiling point:	No data available
Flammability:	No data available
Lower and upper explosion limit:	No data available
Flash point:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
pH:	approx. 8.7
Kinematic viscosity:	No data available
Solubility:	Soluble in water
Partition coefficient: n-octanol/water:	No data available
Vapour pressure:	No data available
Density:	1.68 g/ml
Relative vapour density:	No data available
Particle characteristics:	Not applicable

9.2. Other information

Evaporation rate:	No data available
Miscibility in fats:	No data available
Electrical conductivity:	No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

Under normal conditions, the mixture is not chemically reactive.

10.2. Chemical stability

Stable when stored under the recommended conditions (see Section 7).

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

Avoid strong sunlight and high temperatures.

10.5. Incompatible materials

No data available.

10.6. Hazardous decomposition products

Hazardous decomposition of the product should not occur under normal conditions of storage and use.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity estimate:

Unknown for the product.

Skin corrosion/irritation:

Based on available data, the product does not meet the classification criteria for this hazard class.

Serious eye damage/eye irritation:

Based on available data, the product does not meet the classification criteria for this hazard class.

Respiratory or skin sensitisation:

Based on available data, the product does not meet the classification criteria for this hazard class.

Germ cell mutagenicity:

Based on available data, the product does not meet the classification criteria for this hazard class.

Carcinogenicity:

Based on available data, the product does not meet the classification criteria for this hazard class.

Reproductive toxicity:

Based on available data, the product does not meet the classification criteria for this hazard class.

Specific target organ toxicity – single exposure:

Based on available data, the product does not meet the classification criteria for this hazard class.

Specific target organ toxicity – repeated exposure:

Based on available data, the product does not meet the classification criteria for this hazard class.

Aspiration hazard:

Based on available data, the product does not meet the classification criteria for this hazard class.

Information on likely routes of exposure:

Eye contact:

Contamination of the eyes may cause irritation, redness and watering.

Skin contact:

May cause irritation and redness.

Ingestion:

Accidental ingestion may cause irritation of the mucous membranes of the oesophagus and stomach.

Inhalation:

No data available.

Symptoms related to physical, chemical and toxicological characteristics:

No data available.

Delayed, immediate and chronic effects from short- and long-term exposure:

No data available.

11.2. Information on other hazards

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

Endocrine-disrupting properties:

Based on available data, the product does not meet the classification criteria for this hazard class.

Other information:

No data available.

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as hazardous to the environment.

12.2. Persistence and degradability

No data available for the product.

12.3. Bioaccumulative potential

No data available for the product.

12.4. Mobility in soil

No data available for the product.

12.5. Results of PBT and vPvB assessment

The product does not contain substances meeting the PBT or vPvB criteria according to Annex XIII to REACH.

12.6. Endocrine-disrupting properties

The product is not classified as an endocrine disruptor.

12.7. Other adverse effects

Prevent entry into water, wastewater and soil.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Product

Do not discharge waste product into the sanitary sewer. Disposal of this product, solutions or derived products must always comply with environmental protection requirements. Dispose of waste product in accordance with applicable regulations.

Packaging

Recover/recycle/dispose of packaging waste in accordance with applicable regulations. Transfer used packaging to an authorised company.

Waste code

The Waste Act of 14 December 2012 (Journal of Laws 2018, item 21, as amended) and the Regulation of the Minister of the Environment of 9 December 2014 on the waste catalogue (Journal of Laws, item 1923).

Waste code:

15 01 02 Plastic packaging.

NOTE: Only completely emptied and cleaned packaging may be recycled!

SECTION 14: Transport information

	ADR/RID	IMO/IMGD/	IATA-DGR
14.1. UN number or ID number	---	---	---
14.2. UN proper shipping name	---	---	---
14.3. Transport hazard class(es)			
Classification code	---	---	---
Hazard label No.	---	---	---
14.4. Packing group	---	---	---
14.5. Environmental hazards	---	---	---
14.6. Special precautions for user			

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

Always transport in closed containers that are kept upright and secured. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety data sheet has been prepared in accordance with:

- Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18.12.2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94, as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- Regulation (EC) No. 1272/2008 of 16.12.2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006.
- Commission Regulation (EC) No. 790/2009 of 10.08.2009 adapting to technical and scientific progress Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of 16.12.2008 on classification, labelling and packaging of substances and mixtures.
- Commission Regulation (EU) No. 453/2010 of 20.05.2010 amending Regulation (EC) No. 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
- Act of 25.02.2011 on chemical substances and their mixtures (Journal of Laws 2018, item 143, as amended).
- Regulation of the Minister of Health of 20.04.2012 on the labelling of packaging of hazardous substances and hazardous mixtures and certain mixtures (Journal of Laws 2015, item 450).
- Regulation of the Minister of Family, Labour and Social Policy of 12.06.2018 on maximum permissible concentrations and intensities of agents harmful to health in the working environment (Journal of Laws 2018 No., item 1286).
- The Waste Act of 14.12.2012 (Journal of Laws 2018, item 21, as amended) and the Regulation of the Minister of the Environment of 9.12.2014 on the waste catalogue (Journal of Laws 2014, item 1923).
- Act of 13.06.2013 on the management of packaging and packaging waste (Journal of Laws 2018, item 150, as amended);
- Classification of dangerous goods in accordance with the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR).
- Regulation of the Minister of Labour and Social Policy of 26.09.1997 on general occupational health and safety provisions (Journal of Laws 2003 No. 169, item 1650, as amended).
- Regulation of the Minister of Health of 30.12.2004 on occupational health and safety related to the presence of chemical agents in the workplace (Journal of Laws 2016, item 1488).
- Regulation of the Minister of Economy of 21.12.2005 on essential requirements for personal protective equipment (Journal of Laws No. 259, item 2173).

15.2. Chemical safety assessment

Not available.

SAFETY DATA SHEET

This safety data sheet complies with Regulation (EC) 1907/2006 of 18.12.2006 - REACH and 2020/878 of 18.06.2020.

VENETIAN STUCCO

Date of compilation : 20.10.2022

Version EN: 1.0

SECTION 16: Other information

Read the safety data sheet before use.

Explanation of abbreviations and acronyms used in the safety data sheet:

NDS – maximum permissible concentration of substances harmful to health in the working environment

NDSch – maximum permissible short-term concentration

UN number – substance identification number (United Nations number, UN number)

ADR – European Agreement concerning the International Carriage of Dangerous Goods by Road

IMO – International Maritime Organization

RID – Regulations concerning the International Carriage of Dangerous Goods by Rail

ADN – European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways

IMDG – International Maritime Dangerous Goods Code

ICAO – Technical Instructions for the Safe Transport of Dangerous Goods by Air

Other sources of information:

IUCLID International Uniform Chemical Information Database

ESIS European Chemical Substances Information System

Other information:

The information in this safety data sheet is based on the current state of knowledge and is intended to describe the product in terms of legal requirements relating to safety, health and environmental protection. It should not be understood as a guarantee of specific properties.

Where the conditions of use of the product are beyond the manufacturer's control, responsibility for safe use rests with the user.

The user is responsible for creating conditions for safe use of the product and assumes responsibility for the consequences of improper use of this product.
